

**Job vacancy for engaged people with enthusiasm for
biomedical research!**

TRON gGmbH – Translational Oncology at the Medical Center of the University Mainz – is a growing biopharmaceutical non-profit organization developing highly innovative technologies to address unmet medical needs in the field of cancer diagnostics and therapeutics. TRON is located in Mainz, Germany and is strongly connected to national and international collaborators from both academia and industry. As part of our team, you will have the opportunity to collaborate with talented and dedicated colleagues, develop and expand your career and be on the cutting-edge of translational science to improve patients' lives.

TRON is expanding its multidisciplinary Data Management Unit with exceptional experience in software engineering and software development as well as in user support. To enlarge our technological knowledge and expertise, we are searching for a

Student Assistant (m/f)

with a flexible availability on 2-3 days a week to become a member of our Data Management development team.

DUTIES AND RESPONSIBILITIES

- Data migration/integration
- Data maintenance and documentation
- Software and database development
- Preparation of UMLs and visual workflows
- User support

QUALIFICATION & EXPERIENCE

- (Main-)Studies in (Bio-)Informatics, Mathematics or comparable study program
- Experience in working in a Linux and Microsoft Windows environment (Administration)
- Experience in SQL programming
- Experience in dealing with Microsoft Excel
- Strong visual, verbal, and written communication skills
- Self-starter who works effectively in an agile start-up environment
- Enthusiastic team player who is thrilled to implement personalized medicine

Preferred experience

- Experience in JavaScript or comparable web-programming
