

TECHNICAL ASSISTANCE/ RESEARCH ASSISTANCE (m/f/d)

Full Time - Mainz

We are looking for support in our **Serodiscovery** unit to start as soon as possible. The successful candidate will work on the identification and validation of (auto-) antibodies as biomarkers for several diseases, including cancer.

Your tasks and responsibilities:

- Performing serological assays (ELISA, Luminex) and cell-based in vitro assays
- Participation in the development and optimization of new methods and processes
- Preparation of SOPs as well as independent and accurate documentation of test results and workflows
- General laboratory organization

What you bring:

- A completed training as BTA, MTA, research technician, and/or a degree in life sciences (B.Sc. and/or M.Sc.)
- Practical experience in immunological and serological detection methods (especially ELISA methods and Luminex)
- First experiences in molecular biological and/or protein biochemical methods would be a plus
- Knowledge of standardized workflows as well as enthusiasm for accurate documentation
- Good visual, verbal, and written communication skills in English and profound experience with common Microsoft Office applications (Excel, Word, PowerPoint)

Enthusiasm and curiosity for the diverse activities of our research institute as well as the ability to work in a team completes your profile.

We offer:

- A dynamic, innovative and creative research environment
- An open, collegial and cordial working atmosphere in a respectful corporate culture
- A high degree of diversity in the workforce
- Flat hierarchies
- A performance-related remuneration and other benefits
- The opportunity for personalised further training
- An excellent transport connection by public transport and car, parking spaces, secure bicycle parking
- The opportunity for hybrid working

TRON is an internationally recognised institute for translational research. We combine the strengths of academic research with the requirements of quality-controlled industrial developments. At TRON, we share a

common mission to develop innovative solutions for the immunotherapeutic treatment of cancer, infectious diseases and other serious diseases with high medicinal need for development.

TRON was founded in Mainz in 2010 and works in close cooperation with universities and hospitals as well as with regional, national and international research institutions and pharmaceutical companies.

As part of our team, you have the opportunity to be at the forefront of translational science with us.

If all this appeals to you, we look forward to getting to know you.

Please send us your complete and informative application documents (cover letter, CV, references) in a single document of max. 5 MB by e-mail to Human Resources at **jobs (at) tron-mainz.de**, Job-ID: 51003-23-01-TA.
